Current Location: Hyderabad

PROFESSIONAL SUMMARY

Oracle Integration Cloud (OIC) Developer with 1.5+ year of professional experience designing and developing 20+ integrations, and monitoring and supporting 15+ production integrations between Oracle Fusion Cloud ERP, HCM, and external systems. Hands-on experience with REST/SOAP APIs, Oracle ERP/HCM Cloud Adapters, SFTP/FTP, XSLT transformations, orchestration flows, FBDI, ESS Jobs, Import Management, Lookups, PL/SQL, and ATP validation. Experienced in production incident resolution, fault-log analysis, root cause analysis (RCA), data mapping, integration monitoring, and performance optimization. Strong exposure to Salesforce-to-Oracle Fusion and Oracle Fusion HCM integration support.

CORE TECHNICAL SKILLS

Oracle Integration: Oracle Integration Cloud (OIC), Orchestration Flows, REST/SOAP Integrations, Data Mapping, XSLT Transformations, Lookups, Fault Handling, Integration Monitoring

Oracle Cloud & Adapters: Oracle Fusion Cloud ERP, Oracle Fusion HCM, ERP Cloud Adapter, HCM Adapter, SCM Adapter, FTP Adapter, SFTP Adapter

Oracle Functional/Technical: FBDI, Import Management, ESS Jobs, ATP Validation

APIs & Data: REST APIs, SOAP APIs, XML, JSON, AXML, CSV, SFTP, FTP

Database & Development: PL/SQL, Git, GitHub

Tools: Postman, SoapUI, Jira, ServiceNow

PROFESSIONAL EXPERIENCE

OIC consultant | Shritu Technology Pvt. Ltd. | April 2026 – Present

- Develop and maintain Oracle Integration Cloud (OIC) integrations for enterprise systems using orchestration flows, REST/SOAP adapters, and XSLT transformations.
- Monitor OIC integration runtime performance, identify bottlenecks, and implement optimization approaches to improve throughput and fault tolerance of critical integration flows.
- Developed an OIC integration to retrieve and delete lookup codes across Oracle Fusion HCM lookup types through REST APIs, including commonLookupsLOV and commonLookups.
- Implemented pagination handling for bulk lookup records and resolved API-level header mismatches to improve integration reliability.

Associate Consultant | Vedantus Technologies Pvt. Ltd. | June 2025 – April 2026

- Diagnosed and resolved production integration failures by analyzing OIC fault logs, reprocessing failed messages, and refining data mappings to improve integration reliability and reduce downtime.
- Monitored OIC integration runtime performance, identified bottlenecks, and implemented optimization approaches to improve throughput and fault tolerance.
- Collaborated with functional and technical teams to perform root cause analysis (RCA) and resolve integration issues across Oracle Fusion ERP and HCM modules.
- Provided production support for Oracle Fusion integrations, including incident analysis, defect triage, data validation, and issue resolution.

KEY PROJECTS

PROJECT #1

Company: Vedantus Technology Pvt Ltd, India

Duration: Jun 2025 – Sep 2025

Role: OIC Developer

Environment: Oracle Integration Cloud

Skills Used: OIC, SCM, PLSQL

- Automated retrieval of AXML product data files from SFTP and applied transformation logic to map and persist product data into the database.
- Generated FBDI-compliant CSV files and triggered Item Import ESS Jobs through Oracle Import Management using the ERP Cloud Adapter.

- Implemented file archival workflows and automated error notifications for failed OIC integration instances.

PROJECT #2

Company: Vedantus Technology Pvt Ltd, India

Duration: Sep 2025 – April 2026

Role: OIC Developer

Environment: Oracle Integration Cloud

Skills Used: OIC, HCM, CRM, PLSQL

- **CRM Integration Support:** Provided Level 2 production support for Salesforce CRM to Oracle Fusion integrations using OIC, resolving REST/SOAP connectivity issues and performing root cause analysis (RCA) to sustain continuous data synchronization and prevent recurring failures.
- Validated end-to-end data accuracy through XSLT-based transformations and ATP checks, collaborating with cross-functional teams on integration enhancements.
- **HCM Production Support:** Delivered bug fixes, defect triage, and root cause analysis (RCA) for Oracle Fusion HCM integrations, partnering with functional consultants and business users to validate data corrections and drive system improvements.

CERTIFICATIONS & TRAINING

- Oracle Fusion Cloud Applications ERP Process Essentials Certified - Rel 1 – Oracle
- Oracle Fusion Cloud Applications HCM Process Essentials Certified - Rel 1 – Oracle
- OIC Internship Completion Certificate – Vedantus Technologies Pvt. Ltd.
- Java, Data Structures & Algorithms Training – Sheryians Pvt. Ltd., Bhopal
- Android App Development Training – Sheryians Pvt. Ltd., Bhopal

EDUCATION

Bachelor of Technology (B.Tech.) – Computer Science Engineering | Adina Institute of Science and Technology, Sagar, Madhya Pradesh | May 2021 – April 2025

Class XII – Mathematics (MPBSE) | Govt. Higher Secondary Boys School, Rahatgarh, Madhya Pradesh | May 2020 – March 2021
